RONNEL DARYL RONTOS

FULL STACK DEVELOPER | SYSTEMS ENGINEER | BUSINESS APPLICATIONS

Rodriguez, Rizal | 09928137915 | ronneldarylrontos@gmail.com

PROFESSIONAL SUMMARY

Full Stack Developer and Systems Engineer with experience developing web applications, CRM enhancements, internal business systems, and process automation. Skilled in PHP, Laravel, CodeIgniter, Python/Django, JavaScript, React, SQL databases and REST APIs. Combines software delivery with WordPress customization, Linux server administration, database troubleshooting, networking and L1–L2 technical support.

TECHNICAL SKILLS

Languages & frameworks: PHP, Laravel, CodeIgniter, Python, Django, JavaScript, TypeScript, React, jQuery, HTML5, CSS3

Frontend & APIs: Bootstrap, Tailwind CSS, AJAX, Axios, REST APIs, webhooks, third-party API integration

Databases & security: MySQL, MariaDB, PostgreSQL, SQL query optimization, relational database design, RBAC, authentication and authorization

DevOps & CMS: Git, GitHub, Bitbucket, GitHub Actions/CI/CD, Linux/Ubuntu, DigitalOcean, SSH, Nginx, PHP-FPM, WordPress, XAMPP

IT & networking: LAN troubleshooting, D-Link VLAN configuration, network segmentation, Active Directory, hardware/software support

PROFESSIONAL EXPERIENCE

Kuga Energy | Full Stack Development & Systems Support Jun 2026 – Present

- Develop and enhance internal CRM and business workflows, including warranty-claim features, cost-centre functionality and subcontractor management dashboards.
- Work on solar quotation and calculation interfaces, including requirements for rooftop assessments, battery incentives and NSW/VIC quoting workflows.
- Support the design of audit and inspection modules by translating business forms and spreadsheet processes into implementation requirements and application interfaces.
- Customize and troubleshoot WordPress/PHP website functionality, including online forms, signature capture and PDF document generation.
- Maintain and troubleshoot Ubuntu/DigitalOcean application environments, SSH access, Git deployments, PHP services, database connectivity and site security incidents.

Ineveit | Systems Engineer / Full Stack Developer Jan 2026 – Jun 2026

- Developed web-based applications with PHP, MySQL, jQuery, AJAX, Bootstrap and Tailwind CSS, supporting internal business processes.
- Integrated REST APIs and webhooks; implemented role-based permissions, authentication and authorization.
- Maintained WordPress custom themes, relational schemas, Git workflows and CI/CD pipelines using GitHub Actions.

PROFESSIONAL EXPERIENCE (CONTINUED)

Exponential Technologies | **Full Stack Web Developer** Apr 2025 – Jan 2026

- Developed and maintained an accounting software platform with Django and PostgreSQL, including financial transaction workflows and backend logic.
- Built REST APIs and responsive interfaces using JavaScript, jQuery, AJAX, Bootstrap and Axios; optimized database queries.

Antz Insurance | **IT Assistant / L1–L2 Technical Support** Feb 2022 – Apr 2025

- Provided workstation hardware/software support, diagnostics, upgrades and repairs across end-user environments.
- Configured D-Link switch VLANs, supported LAN connectivity and network segmentation, and administered Active Directory access.
- Developed internal process automation tools using PHP/CodeIgniter, MySQL, JavaScript and XAMPP.

SELECTED PROJECTS

Kuga CRM & Operational Dashboards — Warranty claims, cost-centre enhancements and subcontractor workflow visibility.

Solar Quotation / ITC Inspection Workflows — Solar calculator interfaces and inspection-form-to-system implementation requirements.

ISTI ERP & ISTI Ticketing — Internal business process automation and ticketing solutions using PHP/CodeIgniter and MySQL.

Dahua Turnstile–HRIS Integration — Integrated turnstile API data into an HR information system.

Accounting Software Platform — Django/PostgreSQL financial processing application and REST API development.

Akronpeak.com — Website development using PHP, HTML, CSS, Bootstrap, JavaScript and jQuery.

EDUCATION

Bachelor of Science in Computer Science | Asian Institute of Computer Studies | 2017–2021
